2024-2025

Celebrating 60 Years!

California Poets in the Schools is a 501 (c)(3) organization committed to increasing access to top-notch poetry education in California schools. For 60 years, we've been inspiring youth to create, perform and publish poetry all across the state. Our vision is to enable youth in every California county to discover, cultivate and amplify their own creative voices through reading, analyzing, writing, performing and publishing poetry. When students learn to express their creativity, imagination, and intellectual curiosity through poetry, it becomes a catalyst for learning core academic subjects, accelerating emotional development and supporting personal growth.

(Board Member)

Current Sponsorship Opportunities:

Statewide Anthology of Youth Poetry

Each year we publish a professionally-rendered anthology of the best youth poetry that we saw in classrooms that year. All anthology participants, funders and schools receive free copies of the book. We have found that when we publish our students in a professional anthology, we witness an incredible boost in confidence, validation, cultural relevance, pride, and connection to the writing process. We provide students with tangible memories that can be shared with future generations. We help previously unpublished students build bridges with audiences that hear these student voices for the first time. The anthologies are listed for sale at all major online booksellers.
